

WHITE HOUSE DISAPPOINTED.

Wilson Vainly Looks for Aid in Huerta's Message.

Mexican Executive Keeps His Own Counsel Thus Far.

Situation Complicated by Renewed Rebel Activity.

BY DIRECT WIRE TO THE TIMES.
WASHINGTON BUREAU OF THE TIMES, Sept. 16.—[Exclusive Dispatch.] Gen. Huerta has spoken to the Mexican Congress, and to the keen regret of the Washington administration has not exposed the plans he is determined to pursue.

Thus President Wilson and Secretary Bryan are no better off tonight than they were before the message was made public. They have greater confidence that the Presidential elections will be held next month, but they are still without the positive assurance that Huerta will not be a candidate.

The information hitherto received from Mexico City indicated that the election will be postponed if not abandoned altogether. A telegram from Mr. O'Shaughnessy, American Charge d'Affaires at Mexico City, transmitting a copy of Huerta's message with his comments thereon, was confirmed by the administration that Huerta believes he can now be successful by holding the election than by abandoning it and that they will take place on October 18.

The question now arises as to what the administration's policy will be toward the new government elected next month. It has been discussed by the President and Secretary Bryan, who had a conference today, when the entire Mexican situation was discussed. The Constitutionalists say they will not participate in the election and that they will continue in the field against the new government. The Constitutionalists have the American flag in evidence. The Society of the Comuneros today adopted a resolution favoring the election of a peace government in Chattanooga.

Similar action was taken three months ago by the Confederate veterans at their reunion here.

There are no more signs of a great war here in Chattanooga than there are in any city of the north, where there is no war. If we, the South, Mexican, American and Gettysburg, of course, that can't be said of the surrounding country.

LOOKOUT MOUNTAIN.

Look in whatever direction one may, he sees a point of historic interest. Yonder is old Lookout Mountain. Who has not heard of "the battle above the clouds"? Posts have written about it, history has made it, and all to prove to the world that the proposed election will be a farce, they have redoubled their military operations and intend to spread the war over as large a territory as possible during the coming month.

When the new government comes in, President Wilson and Secretary Bryan will have to determine whether it can maintain itself, establish peace and order, and discharge its international obligations. If so, recognition will be withheld.

Considerable concern is manifested in administration circles over the way Americans are being treated. The ability of the Huerta government not only to extend them protection, but to punish them who have committed outrages upon them, has been tested.

Nothing can be done by Wilson to provide protection for the Americans unless there should be military intervention. This is a remedy the administration does not care to adopt, and all it can do under the circumstances is to continue the same to hold personally responsible those responsible for attacks on Americans.

LAWBOO THE MEXICAN FLAG.

Cowboys in Arizona Town Shoot Crowd of Cowboys and Riot Call Is Seen Out.

BY A. F. NIGHT WIRE TO THE TIMES.
DOUGLAS (Ariz.) Sept. 16.—Three American cowboys rode into Pirville, Ariz., today and threw their ropes over a pole bearing a Mexican flag.

Hearing that their national banner had been dragged in the dust on the anniversary of Mexican independence a mob of 250 Mexicans converged in front of a saloon into which the cowboys had retreated.

A riot call was sent here and police succeeded in dispersing the mob without serious consequences. The cowboys escaped. It was said that warrants would be issued for their arrest.

The Mexican flag was raised again and beside it two smaller American flags were placed as a protection against a recurrence of the incident.

OKLAHOMA STATE SEES CHOMEN.

Oklahoma and North Dakota Take Miles to Ground Allocated Them at Pan-Pacific Exposition.

BY A. F. NIGHT WIRE TO THE TIMES.
SAN FRANCISCO, Sept. 16.—Oklahoma and North Dakota jointly took title today to the sites on which they will build State pavilions at the Pan-Pacific International Exposition of 1915. North Dakota plans to represent its State capital to re-

present its State capital.

The Oklahoma pavilion will be built of 100,000 bricks, sold at \$1 apiece and each stamped with the name of the purchaser. When the pavilion has been erected, the bricks will be returned to Oklahoma for State house intended to stand as an example of civic pride of the State.

In dedicating the site selected, Judge James J. Dunn said today:

"As a State we are not yet 7 years old. We since our admission, we have had to work hard, and have not had time to take time to tell our story to the world. It is Oklahoma that made Aladdin's lamp put his lamp on the sand and made his story stale and commonplace."

EVERY DOLLAR SPENT

for advertising should, in addition to purchasing a certain amount of general publicity, yield a reasonable per cent. of profit on the investment.

Newspaper circulation without definite value means nothing. To an advertiser one reader who has purchasing power is worth a multitude of those without means with which to buy advertised articles.

Many years of undisputed leadership on the Pacific Coast in all the features that go to make up a great modern, metropolitan daily newspaper has enabled The Times to build up a stable, permanent, far-reaching circulation that is much larger and of infinitely better quality than that of any of its local contemporaries.

The Times does not issue a Sunday paper Saturday night, send incomplete editions to out-of-town points, misbrand its editions or resort to any other subterfuge to deceive its advertising patrons, or make its circulation appear to be larger than it actually is.

Every claim made regarding The Times circulation superiority will stand the most rigid investigation; and that its advertising columns appeal directly to buying public, and lessen the cost of selling goods, is indicated by the fact that this paper regularly prints more advertising than any other newspaper in the world.

GEN. HUERTA BOASTS AN ARMY OF A HUNDRED THOUSAND.

HIGH lights in Huerta's message:

Reiterates his opinion that President Wilson is not backed by the American people.

Serves notice that Mexico is ready for any eventuality in the announcement that the republic has an army of 100,000 men bound to it by ties of warmest patriotism and all ready at a moment's notice to defend their country.

Announces that he will spare no effort or sacrifice to bring about peace and guarantee full and free casting of ballots in the forthcoming election.

Notifies all countries, but meaning especially the United States, that the courtesy of extending the stay of warships in Mexican ports will not be renewed when the extension expires next month.

Expresses great regret that a powerful and "civilized" neighbor, bound by commercial and social ties, should hesitate to adopt measures that would end suspense and speedily.

WELCOMES GRAND ARMY.

(Continued from First Page.)

clare that it must have been a dream, that he could not have been in Chattanooga fifty years ago, and yet he had that he was never absent from it from 1861 until the end of the war.

CORDIALLY WELCOMED.

The veterans were never more cordially welcomed at any of the many cities where they have had no national encampment. At no other place has the American flag been more in evidence. The Society of the Comuneros today adopted a resolution favoring the election of a peace government in Chattanooga.

Similar action was taken three months ago by the Confederate veterans at their reunion here.

There are no more signs of a great war here in Chattanooga than there are in any city of the north, where there is no war. If we, the South, Mexican, American and Gettysburg, of course, that can't be said of the surrounding country.

LOOKOUT MOUNTAIN.

Look in whatever direction one may, he sees a point of historic interest. Yonder is old Lookout Mountain. Who has not heard of "the battle above the clouds"? Posts have written about it, history has made it, and all to prove to the world that the proposed election will be a farce, they have redoubled their military operations and intend to spread the war over as large a territory as possible during the coming month.

OHIO WINE MEN KEEP UP FIGHT.

(Continued from First Page.)

POMERENE TRIES TO REINSTATE BRANDY TAX AMENDMENT.

Eastern Manufacturers Are Still Determined to Injure California Industry—Bill May Be Introduced to Prohibit Making of Spurious Products.

(BY DIRECT WIRE TO THE TIMES.)

WASHINGTON BUREAU OF THE TIMES, Sept. 16.—[Exclusive Dispatch.] Not content with the decision of the tariff bill conference to throw out of the bill the Pomerene amendment taxing brandies used in fortifying California sweet wines \$1.16 per gallon, which was done last week, the Ohio makers of fake wines have not given up their fight to injure the California wine industry.

It was learned today that Senator Pomerene intends to appeal to the conference to put back the bill in the tariff bill. He was busy today soliciting members of the conference to allow a hearing on his latest plan.

The California wine representative and California Congressman, when they learned of Pomerene's last ditch attempt, began work among the conference to offset his efforts.

It is not improbable that the California wine men will now carry the war into the enemy's camp. With the backing of pure food experts of the Department of Agriculture, the Californians may have a bill introduced in the House which would prevent the importation of spurious products into Sacramento next week. According to the will, Miller will receive as his portion of the estate \$167,000.

Twenty years ago Williams lived in Omaha with his sister. Miller started west tonight to claim his share of the fortune.

SAYS CALIFORNIA IS SAFE.

Gen. Hugh L. Scott Reports So-Called "Revolution" Consisted of Twelve Men.

(BY A. F. NIGHT WIRE TO THE TIMES.)

EL PASO (Tex.) Sept. 16.—The recent "revolution" in Lower California consisted of twelve men according to Gen. Hugh L. Scott, commanding the United States cavalry border patrol. Gen. Scott returned yesterday from investigating the "revolution" which the recent unrest seems to have caused in the Imperial Valley irrigation system. He found that an adventurer named Enarca, with eleven men, crossed the line and burned a railroad bridge, expecting to pick up a number of recruits, but they failed and disbanded.

The case was uncontested. Judge White reserved decision.

Huerta Blames Wilson.

(Continued from First Page.)

Congress, complementary to the electoral law, under which the government will hold elections the coming October.

He declared that the government would continue to make efforts towards the pacification of the country within a period relatively short. In this respect he could inform Congress that the situation already was nominated by the government in a majority of the States, only Sonora and Durango being at the present totally beyond authority.

He called attention to the fact that within the period treated by the message the most salient accomplishments of the revolutionary movement had been the taking of Tepic, which had been recovered later by the forces of the government, the taking of Durango, which still was in the hands of the rebels, and attacks on the port of Guaymas and the city of Torreon, which was repulsed by the Federal troops. The filibuster movement in the northern part of Lower California had quickly been suppressed.

GRAND PARADE IN MEXICO CITY.

(BY A. F. NIGHT WIRE TO THE TIMES.)

MEXICO CITY, Sept. 16.—The biggest parade ever held in Mexico City began forming early today in celebration of the nation's Independence Day. Cold, drizzling rain caused the flags and bunting to droop, but did not quench the holiday spirit.

From early morning detachments of soldiers, cadets, students and volunteers made their way toward Chapultepec where the day's celebration began with speech making and music and where patriotic utterances of orators appointed for the occasion stirred embryo soldiers to enthusiasm.

GEN. VICTORIANO HUERTA, the Provisional President of Mexico, in full uniform, surrounded by his staff, and accompanied by many government officials and foreign diplomats made a short address, applauding the patriotic ardor of the younger element of the population and calling them the "sons of the motherland" and "worthy sons of loyal fathers."

"You take it from me, Pennsylvania and Ohio are enthusiastic for Adams," he said.

"Who do you think will be elected?" was asked.

"I don't think: I know. Adams will be elected. I intimated as much yesterday. He is a good man, a good soldier, and a good patriot."

WOMAN'S RELIEF CORPS.

While the contest for Commander-in-Chief was more spirited than has been witnessed at any national encampment of the last ten years, the friends of Gardner and the members of the Women's Relief Corps, ladies of the Woman's Relief Corps, have been most enthusiastic.

From early morning detachments of soldiers, cadets, students and volunteers made their way toward Chapultepec where the day's celebration began with speech making and music and where patriotic utterances of orators appointed for the occasion stirred embryo soldiers to enthusiasm.

GEN. VICTORIANO HUERTA, the Provisional President of Mexico, in full uniform, surrounded by his staff, and accompanied by many government officials and foreign diplomats made a short address, applauding the patriotic ardor of the younger element of the population and calling them the "sons of the motherland" and "worthy sons of loyal fathers."

The Rio Grande.
TARIFF MAKERS
ARE BUSY HERE.

Shed Coats and Prepare to Turn Out a Volume.

Four Weeks to Be Consumed in Hard, Hot Labor.

Rate Quotations Subject to Interstate Commission.

On the sixth floor of the Kershoff building, seven coatless men sat down yesterday to make a tariff. As they have no campaign promises to keep and are, moreover, seasoned tariff-makers, the result is expected to be more satisfactory than the article the Democrats are preparing to force on the country under the name of Underwood. The new tariff will be especially acceptable to Tucson, to which is granted exceptional privilege.

The tariff these men are making will be known, when duly voted by the House, as the Rio Grande Joint Passenger Tariff No. 125. It will not be a voluminous document, but in the four weeks which Nat A. Black of Topeka, Kan., agent for the tariff-making body, by authority of the Interstate Commerce Commission, estimates will be required for its compilation, a bunch of grammar school will be suspended and nerves probably worn to a frazzle, for these men have masters, many of whom, scattered from the Arctic Circle to south of the Tropic of Cancer.

Two hundred pages there will be in this tariff, with approximately 1900 rate quotations to the 1,000 or 1,100 items in all. The rates therein set forth will provide the Interstate Commerce Commission sanctions, the issuance, be, on and after January 1, the letter of the law in the routing of passengers from Alameda, Aspinwall, Boston, Dunning, El Paso, New York, Phoenix, Tucson, Tucumcari and Tucson to every city and hamlet of the United States, the Dominion of Canada, Mexico and Cuba.

From these places, rates by every possible line and under all circumstances will be quoted, indexed and cross-indexed. In the end of the man behind the scenes window of the railroad stations of Arizona, New Mexico and Western Texas, it will be the open-season by which, in return for the duly designated fee, you can be routed to the end of the rails of the National Railways of Mexico or to the northern north of the Dominion.

Not every item in existing tariffs or their supplements will be changed, perhaps only a small part of 1 per cent of them. But each rate, 200,000 of them, will be scrutinized and readjusted according to the latest decisions of the Interstate Commerce Commission, the various State railroad or public utility commissions and the many passenger associations. They will be checked against the rates in thousands of up-to-date tariffs and against the dictates of the rate chiefs of every railroad company of North America.

"The first tariff, Tucson will be for the first time, come into a real gateway of first-rate importance. On the 25th day of this month, the Southern Pacific, the El Paso and Southwestern, and the Arizona Eastern will issue their tickets for preferential routing over the other two roads, but it will be in this tariff that the arrangement will be given to the existence."

In addition to Black, the following men are engaged in the work: M. C. Harris of Phoenix, representing the Santa Fe, Prescott and Phoenix; S. L. Cooper of Tucson, representing the Arizona Eastern; J. R. Gries of this city, representing the Southern Pacific; M. M. Moore of San Francisco, representing the Rock Island; George Graves of this city, representing the Santa Fe Coast lines; and J. L. Pruitt of El Paso, representing the Pass and Southwestern. Representatives of the other interested roads are expected here daily.

The last time the tariff-making body met in this city was five years ago.

BACK ACROSS THE SEA.

Former Vienna Landress Brought Here by Prince to Be Deported Today—Others, Too.

The Prince Sulkowski-Clara Melcher incident, so far as the Federal government is concerned, will close today, with the termination of the testimony before the Federal grand jury, and the deportation of the ex-Vienna landress.

Mrs. Melcher will be a member of the party leaving today for New York in custody of Immigration Inspector Jones and of San Diego Inspector Jean Dominique Morchisio, ex-custodian of the Marseilles (France) office, who was captured with Mrs. Madeline Michelin in this city, will, with the woman, and her 4-year-old son, also be a member of the deportation party. Melcher has a wife and two children, and the woman and her son are in Marseilles. They were both led to be deported, thus escaping prosecution.

Mrs. Melcher does not yet know that she is to be sent away today by Capt. Connell, immigration officer in charge. She completed her testimony before the Federal grand jury yesterday.

During the afternoon August Gross and wife, parents of Prince Sulkowski, were also witnesses. It is understood that a report will be made to the court tomorrow, when the Sulkowski case will be finally disposed of—unless his coming back at some future time.

CONVENTION PLANS.

The Gresters Meet at Westminster to Prepare Reception for National Convalesce.

The Gresters' Club at the Hotel Westminster last night began arrangements for entertaining the national convention of Gresters of America, consisting of hotel clerks—here next June.

President James Doherty appointed the following general convention committee members: Lee Russel, Edward Miller, W. A. Rains, J. V. Bader, A. D. and Albert Selby. Doherty will act as chairman.

"Los Angeles won the convention for great opposition from other cities," Doherty said in his opening address. "We must make a fine showing and I believe we should begin making our plans now."

SAVED BY HIS YEARS.
Quack Doctor's Sentence Suspended by Police Judge When Informer Prisoner's Three-score and Ten.

Age, the condition that is supposed to bring so many things, brought the charity of the court to William Allen yesterday. He was given a suspended sentence for being a quack doctor. His only plea was that he was a "poor old fool." Judge Cassidy immediately suspended the fine of \$200 that he imposed when he learned the prisoner's years.

Allen had trafficked in patent medicine without license or permit from any authority, professional or civil, and had, without a vacation, he decided to become a person of drugs and opened a small shop for the sale of medicines and corns. Such was the legend that he had printed on his cap. To make it better for advertising, he used a street car conductor's cap, and brass plates to bear the lettering.

His specialty varied with the task by which you approached him. From the right, he announced, "I cure corns." From the left, his plea was "I cure cancers." That modest claim was printed in red enamel on the brass. He was willing to either leave the town or change his ways. By his plan, he earned \$200, which is quite a triumph for any age, old or young.

New Evidence.

UNEXPECTED POPS IN MURDER CASE.

WIDOW JOINTLY CHARGED WITH HUSBAND'S DEATH.

Woman, Denying Complicity, Is Defendant While Officers Say She Hung Light in Window to Signal When Victim Stopped from House Toward His Slayer.

An unexpected twist in the investigation into the slaying of Frank E. Nelson at Florence Saturday developed yesterday afternoon, when a companion charging murder in the first degree was drawn against Mrs. Rosalie Cook, widow of Frank E. Nelson, another man charged with the same crime.

Mrs. Nelson, determined, unflinching and defiant, was examined by the Sheriff yesterday. She denied any complicity in the slaying of her husband, and declared Cook a degenerate, mentally incompetent and a man of depravity.

But the investigations of Deputy Sheriff Wright and Bradford, coupled with a separate inquiry by Detective McLaren of the District Attorney's office, brought to the surface certain amazing developments.

It is alleged that Mrs. Nelson urged Cook time and time again to make away with her husband. It is declared that she offered money to a third person, not yet mentioned, to do the same act of assassination.

But the investigations of Deputy Sheriff Wright and Bradford, coupled with a separate inquiry by Detective McLaren of the District Attorney's office, brought to the surface certain amazing developments.

It is alleged that Mrs. Nelson urged Cook time and time again to make away with her husband. It is declared that she offered money to a third person, not yet mentioned, to do the same act of assassination.

Mrs. Nelson, determined, unflinching and defiant, was examined by the Sheriff yesterday. She denied any complicity in the slaying of her husband, and declared Cook a degenerate, mentally incompetent and a man of depravity.

Fires Ravage Mountains.

Bogus Toward Arroyo Seco Is Halted.

Several Houses Destroyed Near Little Landers.

Hazard in San Diego County Is Serious.

SEBASTIEN, Sept. 17.—The forest fire has been burning in the Sierra Madre Mountains since last Saturday night, took its most disastrous toll yesterday. Though its progress toward the Arroyo Seco was halted, when the wind fanned the northern end of the fire a fury and it went over into the canyon of the Tejunga River.

Less than eight reports came from the fire, the fire had made its way over to the river and that the Indians were moving along the side of the stream trying to keep it from crossing and going up the north fork.

Indians, ranch, situated not

far from the settlement of Little Landers, and his family, barely escaped with their lives in flames almost as hot as they turned their backs.

W. E. Ritter, who lives at Little Landers, has several small cottages he had built in a draw running off from the Tejunga. They were

burned down, his wife, Mrs. Ritter, and a few of the men who

were in the canyon fighting

the forest rangers, had to work

trucks to save the ranch buildings.

Most of these were on fire more

than half an hour.

He also reported late last night

that his son had lost his life.

The fire has made a semi-circular

area and comes back to its starting

point. It was at Little Landers, a

distance of several hundred

yards from the northwestern corner of La

Sierra Madre. When it started, when

it was estimated to clear a piece

of ground by burning the brush. For a

few yesterday afternoon and last

night the flames were leaping high

in the air not a mile distant from

the village. However, before

the fire could start the wind veered

and the fire got to another direction.

The latest reports last night

had the fire was under control

in the valley, though not by any

means in the canyon, and that Little Landers was still safe.

The fire jumped for the Tejunga

only yesterday morning, when a

strong wind started to blow in that

area. Forest Supervisor Charlton

McNamee, and Chief of Police

of Los Angeles, for more men

to help them could not be found.

Men and women, and a few

Indians, were available, but

there were not enough volunteers to be

had. Indians are desirable, as

they know well how to use

water. Most of the Mexicans of

the city had turned in celebrating

the national holiday when

the police and fire departments

were being held and joined.

The police were instructed

only men who had on

Many of the fire-fighters

and the firemen were working almost

if it was not for the fire.

The fire last night was worse

than any time since it

the day brought good news

as there is now con-

cern for the Arroyo Seco.

There is now

C. Doughty, who

Arroyo Seco, returned

to the fire early yesterday.

He reported that the Ar-

royo Seco is out of danger.

Elie Mountain, is

the way the

there is no chance

to the Arroyo Seco.

That has previously been

it would have to cross

the watchfulness last

the Pacific Electric line between this city and Los Angeles has been started by the residents of this city. A committee consisting of E. M. Emery, H. B. Brown, and Thomas Raymond appointed a week ago to look into this matter and offer suggestions to the board, reported to the Trustees last night. The board recommended that the city make its own fight and not join the Los Angeles rate-fixing committee in its attempt to fix the rates for the city and other suburbs to the Los Angeles Committee, recommended the following reductions: Fifteen cents the round trip; 10 cents one way fare, 5 cents for the fifty-two ride individual book good for one month; 6 cents per ride on the thirty-five fare book good for nine days; 10 cents per ride on the twelve book. It also suggested that the fight be made for one rate for the entire city. It recommended that the city demand these lower rates of the Pacific Electric Company, and if the city's demand was not met within a period of time for the city to start action immediately with the State Railroad Commission.

The Old Settlers' Association of this

valley will hold its annual picnic at Summerset Farm, Saturday, the home of J. C. Sherer, president of the asso-

ciation.

Public Service: City Hall, Courts.

SUMMARY OF THE DAY.

The City Council yesterday passed an ordinance creating the Efficiency Commission, and naming the City Auditor vice-president of the Civic Service Commission, and the City Auditor, the Civil Service Commission, and the City Council, the Civil Service Commission, as its members. An appropriation of \$15,000 has been made for the first year's work.

More protests were filed at the City Hall yesterday against proceeding with the plan to close the Auto Station until such time as a general plan for elimination of grade crossings is adopted. The campaign for delay is to continue and other clubs will file protests on the lines.

A conference was held yesterday between the Harbor Commission and representatives of the Outer Harbor Dock and Wharf Company, looking to the inclusion of the company's terminal in the great municipal plan for a city terminal at the harbor.

The Board of Public Works will begin tomorrow to hold daily hearings on claims for damages in the proceedings for the improvement of Sunset boulevard, from Main to Marion streets. The final report on awards of damages may be made by October 1.

Members of the Public Utilities Commission stated yesterday afternoon that they will comply with the request of the City Council and hold another hearing on the natural gas situation, but they believe they have all the information available from the gas companies.

At the City Hall

OPENS WAY FOR MONEY-SAVING.

COUNCIL CREATES EFFICIENCY COMMISSION.

Passes Ordinance Providing That City Auditor, Vice-Presidents of Civil Service Commission and Chairman of Efficiency Committee Shall Form This Important Body.

City Auditor Myers, Commissioner E. C. Bellows of the Civil Service Board, and Councilman Conwell will be the members of the city's newest commission, the Efficiency Commission, that is called into existence by an ordinance passed by the City Council at yesterday's session. All of these commissioners are to serve the city in this capacity without compensation.

The ordinance, which will become effective within thirty days after it is signed by the Mayor, outlines the powers of the new commission as follows:

"said commission shall have power to investigate the administration of the various departments of the city for the purpose of determining the duties of each position, to fix standards of efficiency, to establish a system of individual, departmental and to recommend to the City Council and to the respective officers, boards and commissions of the city measures for increasing individual, group and departmental efficiency, and providing for similarity of operation and uniformity of compensation throughout the service."

Provision has been made in the budget for an appropriation of \$15,000 for the Efficiency Bureau's first year's work. The general plans are to provide for a survey of all city departments and classification of employees to rank in position of authority, the salaries paid, etc. After this date is compiled, then the Efficiency Commission will place in charge an experienced man in efficiency work, to prepare a schedule of standardization and mature general efficiency throughout the service.

Councilman Conwell, who has given the subject earnest consideration, made a speech yesterday for co-operation of all city departments in forwarding the work of the new bureau, urging that thereby the desired plans for standardization of employees can be put into effect as early as possible. This and other changes can be effected that will enable the city to better transact public business, secure more satisfactory results for the outlay, and eventually effect a saving to the municipality of \$300,000 a year.

BOARD WILL COMPLY. AND HOLD GAS HEARING.

According to programme, the McKeon resolution requesting the Board of Public Utilities to hold another hearing on the natural gas situation and summer gas company of service to the city, and the information as will pave the way for fixing the natural gas rate for the city, went through the Council yesterday and the resolution was unanimously adopted.

President McReynolds and Commissioners Bellows and Conwell, that hearing will be held at the earliest date convenient, possibly this afternoon.

McReynolds stated that there is little prospect of gathering more information at this time than the board already has, but that it is willing to hold the hearing and will request the gas representatives to be present. "I do not think it will be necessary to issue subpoenas to insure their appearance," said McReynolds. "I am sure that down to date we have had all the information that is to be had from them, but it remains to be seen whether we can secure new information."

WOULD COME IN. ON TERMINAL PLAN.

Capt. Randolph H. Miner, president of the Outer Harbor Dock and Wharf Company, met with the Harbor Commission yesterday in the great municipal terminal facilities for which plans are being matured. Maps were submitted, showing the present and proposed development of the company's terminals at the harbor, and these were referred to Harbor Engineer Jubb for investigation as to how they may be co-ordinated with the plans already approved by the Harbor Commission, the Southern Pacific and Pacific Electric companies. No question arose as to the advisability of the harbor company's terminal facilities in the larger scheme, it being only a question of detail as to how they may be best utilized.

GROWING IN NUMBER. PROTESTS ON STATION.

The movement to bring pressure to bear on the City Council to delay action on the proposed new Arcadia station until such time as a comprehensive scheme for elimination of grade crossings is adopted, was taken out, continuing to grow. The Municipal League and other organizations on the subject were presented at yesterday's Council session, and during the session were filed with the City

Clerk resolutions of similar nature from the Million Club and the Business Woman's Civic Club.

A delegation of club women, representing twenty clubs and civic organizations, met yesterday to discuss the physical situation along Alameda Street and at the station site, sent to the Council yesterday a statement reciting:

"That this meeting of club women requests the City Council to defer action on the question at issue with the Southern Pacific Railroad Company until a report of the State Railroad Commission in response to the questions put to that body by a committee of citizens of Los Angeles concerning this matter has been received."

The campaign for endorsement by various clubs of the demand for delay until plans for elevated tracks are completed, was continued by the Association Belvoir of the Public Utilities Board yesterday that the Temple Men's Club and the Temple Women's Union will each endorse these resolutions and that the subject will be presented to the City Club at its meeting next Saturday.

BUFF NO WALKS. MISSION ROAD PAVING.

Mission road will be paved for a full width of sixty feet—provided the proceedings are not protested out—but there will be no sidewalks required at this time. The latest and apparently final decision of the City Council is that the paving of a street on which efforts for improvement have been made for several years.

The Council discussed the situation yesterday, and while President Bellows had his objection to that, the width of paving to be cut down to twenty feet, he stated that he had discovered the majority of the property owners want a full sixty-foot width paved with paved a majority petition to that effect. The City Council decided, however, that it was not necessary to insist upon cement sidewalks at this time.

DAMAGE CLAIMS. HEARINGS THIS WEEK.

The Board of Public Works will begin tomorrow afternoon at 1 o'clock their first damage claim of property owners in the proceedings for the improvement of Sunset boulevard, from Main to Marion streets. There are twenty-three claimants and two claimants per day will be heard until the hearing is completed. The board will make its final report on the award of damages by the first of October. The damage claims filed aggregate more than \$100,000.

PLANS FOR THE LOWERING OF THE BROADWAY RAILROAD ARE INTELLIGIBLE AND CONNECTED WITH THOSE FOR THE IMPROVEMENT OF SUNSET BOULEVARD, AS IT IS PROPOSED TO CHANGE THE GRADE OF NORTH BROADWAY AT THE NORTHERN PORTAL SO AS TO RUN OUT TO PRESENT GRADE AT ORD STREET, AND THIS WILL REQUIRE A HIKE.

ATTORNEY J. W. BELL, WHO IS SUPPOSEDLY REPRESENTING SOME OF THE CLUB WOMEN, APPEARED AS A SPECIAL PROSECUTOR. HE TOOK NO PART IN THE PROCEEDINGS, HOWEVER. O. C. LAWLER, LECompte Davis and Jud Rush were present for the defendant.

ONE OF THE PRINCIPAL QUESTIONS ASKED EACH TALESMAN WAS IN REGARD TO WHAT HE HAD READ OF THE PRELIMINARY PROCEEDINGS, AND IT WAS DETERMINED THAT THERE WAS SO MUCH ABOUT THE CASE IN SOME OF THE PAPERS THAT IT HAD DISGUSTED THEM. FEW WERE WILLING TO STATE THEY HAD FORMED OR EXPRESSED AN OPINION AS TO THE GUILT OR INNOCENCE OF THE DEFENDANT.

IT IS EXPECTED THAT THE TRIAL WILL BE SHIPPED ABOUT THE MIDDLE OF NEXT WEEK. THE PROSECUTION WILL BE SHORT. THE DEFENSE MAY CONSUME CONSIDERABLE TIME.

THE CASE WILL BE RESUMED AT 10 O'CLOCK THIS MORNING.

DECIDER RENT. COURT TO ADJUDICATE VALUE.

VALUING THE PROPERTY AT THE SOUTH-EAST CORNER OF SIXTH AND SPRING STREETS AT \$800,000, THE RENTAL VALUE FOR FIVE YEARS ON JULY 1, LAST, IS COMPUTED ON THAT BASIS AT \$80,000 A YEAR, OR \$400,000 INSTEAD OF \$300,000 A MONTH, WHICH IS THE PRESENT LEASE WITH THE DEVELOPMENT BUILDING COMPANY.

SWIMMING IS GREAT SPORT.
Miss Mayer Says It's Great for the Health.

Swims That the Old Breast Stroke Is Best.

Swims Is Great Stuff for Becoming Graceful.

Nobody who likes the water can anything but healthy and everyone who does lots of swimming is sure to be healthy." To speak Little Mayer, who is appearing with her troupe of five diving girls at Pantages Theater this week, her statement is certainly borne out by herself and the other girls, for there were half a dozen healthy looking young ladies. Little Mayer, who began swimming when she was 6 years old and is well qualified to speak on the subject of swimming for girls as she is the holder of two records both for swimming and diving, the best of which, perhaps, is that of swimming twenty-six miles in the Mississippi River, being in the water for hours and 11 minutes.

"It is not that speed swimming is the thing for women," said Miss Mayer. "They do not seem to adapt to such work and while I know that long distance swimming does for them, I think that short distance work is too much of a strain and does more harm than good."

Miss Mayer is one of the swimmers who remain true to the good old egg stroke. This was the stroke of choice of Capt. Webb to make his famous swim across the English Channel and in the Whirlpool rapids. Miss Mayer says that her favorite stroke through who comes off to the trudging occasion.

Miss Mayer is exceptionally proud of her act, as they are all her ideas. She took them all when they were hardly able to do a straight dive due to the nervousness of the audience watching them. It is very remarkable that a troupe of six such divers is found.

Women should not go in for racing said Miss Mayer, "but should try for more grace in the water and swimming is more graceful than good swimming. I have never been swimming with girls to dive." And after them, herself, it's a pipe that makes awkward people in Los Angeles will be taking up diving in the race of becoming equally graceful.

ALL PLAYERS TO BE ENTERTAINED.

OXNARD, Sept. 16.—When the Chicago White Sox and the New York Yankees play in Oxnard November 11, they will be entertained by members of the Board of Trade, and the amusement committee of that body will have charge of arrangements for the game. Formal action was taken by the board at its meeting Monday, ratifying arrangements of individual members in securing arrangements for the game, which will probably be the only one made by the big league between Los Angeles and San Francisco on their mid-tour. Membership of the amusement committee was increased from 12 to 12 to provide for the extra work. The seating capacity of the park will be largely increased and the admission is expected to top 10,000 in the first weeks. Applications are already being received for seats for the big game.

OUR COASTERS TO GO TO THE MAJORS.

BY DIRECT WIRE TO THE TIMES.

CINCINNATI, Sept. 16.—[Exclusive Dispatch.] Only four Pacific Coast teams play up to higher company through the draft route. The list announced yesterday shows that the Chicago Cubs, St. Louis Browns and Detroit Americans were the lucky ones. Twelve teams wanted to draft Americans, but Detroit got the one it wanted, the Pitchers. White Sox is touted as a real star. From San Francisco Chicago gets Player.

St. Louis Americans are allowed the first choice on the Venus team, which will be given no more players from Los Angeles. These teams have four days to name the men they are to take. One hundred and eight players were drafted all. The system used this year is the same as last. Instead of putting in the list of players the teams cast for men, and the only being lucky enough to be taken is the one who is allowed to take first choice. The list will not be completed until September 26.

PHILADELPHIA MEETS CLARKE.

SAN FRANCISCO, Sept. 16.—[Exclusive Dispatch.] Jimmy Clancy, the famous middleweight, and Sailor Monroy have been matched for a ten-round fight here on the night October 1. Clancy, who weighs 162 pounds at 160, will be pitted against Jim Monroy, who will weigh 160. Jim Monroy has fought two draws recently with Bob McAllister, San Francisco Olympic Club man.

HEINZ GETS HIS.

NEW YORK, Sept. 16.—[Exclusive Dispatch.] Bert Fagan, California middleweight, made his first appearance in the ring here tonight in ten-round bout with Young Alman of Brooklyn and was outworn and beaten.

RITCHIE MAY MEET CROSS.

BY DIRECT WIRE TO THE TIMES.

CHICAGO, Sept. 16.—[Exclusive Dispatch.] Owners of baseball clubs and officials connected with the business end of the game are more concerned over the future than they are willing to admit. No one thinks baseball is going into a marked decline, or that its future is imperiled, but the second "off year" in succession suggests the question whether baseball has not passed its crest at least from the financial side.

Nearly every league president will admit that baseball is not going well in other leagues, but that his own has done well, and that his club is successful. After taking out the proper amount of sugar from these statements, the fact remains that even in the big leagues, the clubs at the top have made money, but the second division clubs have had a hard time and the average is below what it should be.

In view of these general conditions throughout the country, the showing of the American Association average ledger can be regarded as satisfactory. It is unlikely that more than one club, Toledo, will face actual deficit at the end of the season, and the average is below what it should be.

WRITING A "MOVIE" PLAY.

Part III—Technical Faults of Amateur Writers.

BY L. BARTLETT.

It may be guessed that the writing of a successful photoplay is not the easiest thing in the world; although a great proportion of the people who are submitting scripts apparently think it ought to be. It is very common and very gratifying to have people come into the office and say: "I didn't have anything else to do the other day, so I wrote a bunch of scenarios." "I'll wait while you look them over." Or: "Here's a lot of junk I couldn't sell to the magazines. I made it up for moving pictures." Or: "Here's a scenario that occurred to me as I came in on the car this morning. If you like it I can dash off one a day," etc. Now, this sort of stuff, with a very rare exception now and then, is all worthless. And the explanation is, it comes off as a pitiful suggestion of what the author might have done with his idea. Had he taken the photoplay art, rather than himself, seriously. This art of the silent drama is unbounded in its possibilities, and every effort is being made toward elevation and development. It is the consideration of anyone who believes that he or she has the creative instinct and the patience to learn the technique of the photoplay.

NEED DIRECT ACTION.
In emphasizing the necessity for direct action plots, it is not meant to infer that subtle sentiments cannot be expressed on the screen. We were referring more especially to one-reel stories, that are meant to be plotted and performed, tension or action is to begin convincingly and end indefinitely. A one-reel photoplay can be at best only a flash of a cross section of life—a sort of X-ray probe into a thought as expressed by a combination of living characters, and unless the light there is reveals the thought moving swiftly and surely, it is as good as nothing. It is the lack of sufficient screen announcement. This is a feature which has to be considered very carefully.

They Should Worry.

BASEBALL MAGNATES HAVE A BAD FINANCIAL YEAR.

BY DIRECT WIRE TO THE TIMES.

CHICAGO, Sept. 16.—[Exclusive Dispatch.] Owners of baseball clubs and officials connected with the business end of the game are more concerned over the future than they are willing to admit. No one thinks baseball is going into a marked decline, or that its future is imperiled, but the second "off year" in succession suggests the question whether baseball has not passed its crest at least from the financial side.

Considering the figures at which associations are valued, profits show only a fair return on the investment. In view of the hazards of the business and always that dim possibility of a break-up, was upsetting the framework of organized baseball.

In view of these general conditions throughout the country, the showing of the American Association average ledger can be regarded as satisfactory. It is unlikely that more than one club, Toledo, will face actual deficit at the end of the season, and the average is below what it should be.
